Bauhaus Returns to Bethesda!
Works on Paper by Werner Drewes
Triangle Art Studios • Bethesda • Maryland
October 29 – November 30, 2024

This show will embrace works spanning Drewes' Bauhaus studies to his retirement years where he continued to "play with shape, form and color" in the creations of stunning abstract collages. No Drewes show would be complete without an assemblage of his multi-plate, textured woodcuts, as well. This show will also include pastels and watercolors never exhibited. We are proud to share this art with you, from one of the most formidable American Abstract Artists.

Come to our special presentation on the Atelier 17 Project. Ann Shafer, independent curator and past curator of the Baltimore Art Museum, will be discussing the exciting plans for celebrating the 100th year of the Atelier 17 Project, a major printing movement brought to the U.S. from France during the 1940s.

Triangle Art Studios will also be open throughout the month of November for the enjoyment of this work!
